Dhaka, Bangladesh

Career Objective

Seeking a growth-oriented role in a supportive and dynamic environment where I can sharpen my skills, embrace new challenges, and lay a strong foundation for my future. I'm a quick learner with a passion for continuous improvement.

Skills

Expertise:

React.js, Next.js, JavaScript (ES6+), TypeScript, Redux, Zustand, Mongoose, Firebase, Clerk, REST API Integration, GraphQL, React Router, Context API, TanStack Query, Axios, JWT, Bootstrap, Tailwind CSS, OpenAI

Comfortable With:

Node.js, Express.js, MongoDB, PostgreSQL, Prisma, HTML5, CSS3, Git & GitHub, Vercel, Stripe, SSL Commerz

Familiar / Learning:

Python, OOP, Data Structures & Algorithms, Problem Solving

Projects

NEXORA – Full Stack Web App

| [Live](#) | [Github client](#) | [Github server](#)

Overview:

NEXORA is a secure and feature-rich **Building Management System** that simplifies apartment management for Admin, Members and Users. It offers role-based dashboards, a streamlined agreement workflow, and an integrated Stripe payment gateway to handle rent payments.

Major Features:

- Users can browse apartments, send agreement requests, Apply coupon and pay rent online
- Role-based dashboards for Users, building Members, and Admins
- Owners can manage apartments, approve/reject agreements, and track payments
- Integrated Stripe payment gateway for secure and seamless transactions
- Admins oversee all apartments, agreements, Members, and revenue analytics
- Secure authentication and access control using Firebase and JWT

Tech Stack:

React, Express, MongoDB, Nodejs CRON job,, Firebase, JWT, JavaScript, TanStack Query, Axios, Stripe, Dotenv, CORS, TailwindCSS, HTML, DaisyUI, Nodemailer

Parcel Point – Full Stack Web App

| [Live](#) | [GitHub](#)

Overview:

Parcel Point is a secure and user-friendly platform for **booking, tracking, and managing parcel deliveries**. It features role-based dashboards for users, riders, and admins, along with real-time delivery updates and a built-in payment gateway for smooth online transactions.

Major Features:

- Users can book parcels, make payments, and track deliveries in real time
- Integrated payment gateway (Stripe) & Role-based dashboards for customers, riders, and admins
- Admins can manage parcels, users, service areas, and rider assignments
- Riders can view assigned parcels, update delivery statuses, and track earnings
- Secure authentication and access control implemented with Firebase and JWT

Tech Stack:

React, Vite, Express, MongoDB, Nodejs, Firebase, JWT, TypeScript, TanStack Query, Axios, Stripe, Dotenv, CORS, TailwindCSS, HTML, DaisyUI, Nodemailer

NEXT_POST – Full Stack Web App

| [GitHub](#)

Overview:

NEXT_POST is a modern social media platform that allows users to connect, share content, and engage with others through posts, likes, comments, and real-time notifications.

Major Features:

- Users can register, log in, and manage profiles securely via Clerk
- Create posts with text and multiple images using UploadThing
- Like, comment, Follow/unfollow and realtime notifications for likes, comments, and follows
- Optimized performance with server components, server actions, and Next.js App Router

Tech Stack:

Next.js (App Router), TypeScript, Prisma, PostgreSQL (Neon), Clerk, UploadThing, TailwindCSS, Shadcn UI, next-themes, Dotenv

Experience

Frontend developer at [Seenyor](#) (Home Health Care Services) Jun 2025 - Oct 2025 · 5 mos
California, United States

Education

BSc in Computer Science and Engineering – (2022 - 2026 Expected)
Green University of Bangladesh

Certifications

-
- Complete Web Development - (**Programming Hero**)
 - Inter Department Programming contest Runners up(IDPC) - Green University of Bangladesh (2024)

Languages

Bangla (Native), English (Fluent), Urdu (Fluent)
